SINGLE-ROW 5-SPINDLE DRILL HEAD

www.metalservice.pl

technical data

5 spindles	32 mm pitch*
1:1 drive	Even transmission of rotary motion
Air blow system	Cleaner and more precise machining
Easy installation	Weeke standard**
Aluminum housing P 7075	Lightness and durability
Hardened, groundspindles and gears	Longevity and precision

FEATURES OF THE DRILL HEAD

The multi-spindle drill head is a precision tool designed for efficient machining of wood-based materials, plastics, and soft metals. Thanks to the use of high-quality components, it ensures long service life, reliability, and maximum drilling precision.

HEAD ADAPTED TO YOUR NEEDS – WE WILL ADJUST THE DRILL SPACING AND PARAMETERS TO ANY TYPE OF MACHINING.

Highest quality bearings: SKF, NTN, EZO

Features

- Unmatched precision – perfect spindle synchronization**
- High durability – solid, hardened components**
- Work efficiency – 5 drillings in one cycle**
- Cleaning – thanks to the air blow system**
- Easy integration – standard Weeke mounting**

* Number of spindles: from 1 to 23, spindle spacing: from 16mm
** Available standard mountings for BIESSE, IMA, and others.
